**SALEM, VIRGINIA RECYCLED CONTENT  
LEED MR CREDIT 4**

---

---

In accordance with LEED MR Credit 4, we hereby certify the following information for product manufactured at our Salem, Virginia facility.

We purchase the majority of our steel from mini mills which use scrap steel as their primary ingredient and electric arc furnace (EAF) technology.

Based on a review of information provided by our current steel suppliers, the breakdown of recycled content in our finished product is as follows:

| <b>Product</b> | <b>Average Recycled Content</b> | <b>Average Post-Consumer Content</b> | <b>Average Pre-Consumer Content</b> | <b>LEED Recycled Content (post-consumer + ½ pre-consumer)</b> |
|----------------|---------------------------------|--------------------------------------|-------------------------------------|---|
| Steel Joists   | 96%                             | 87%                                  | 7%                                  | 91%   |
| Steel Deck     | 62%                             | 36%                                  | 21%                                 | 47%   |

Supporting documentation from our steel suppliers is available upon request.

Sincerely,

Sara R. Cupp, CHMM
