NEW MILLENNIUM
BUILDING SYSTEMS

Flexible to the Finish

NEW MILLENNIUM BUILDING SYSTEMS

Flexible to the Finish

Lower your metal building project costs and uplift the quality and value of your projects! New Millennium is your source for the flexible design, manufacturing and delivery of steel joists and metal decking.

- One team to call for projects most anywhere in the U.S.
- 24-hour-or-less turnaround on most quotes
- Free Dynamic Joist™ digital steel joist design component
- Optional BIM-based design collaboration
- Cost cutting alternative designs available for no added fee
- Dynamic manufacturing supports flexible project schedules

Dedicated nationwide support

- Add a competitive advantage to your project
- One team dedicated to your project's success
- One source for engineering, manufacturing and delivery

Architectural solutions

- Elevate the style and esthetic appeal of your metal building
- Leverage our industry-leading special profile steel joist designs
- Get your free copy of our special profile steel joist catalog today

Digital/BIM design collaboration

- Optional BIM-based digital steel joist design
- Free Dynamic Joist™ 3-D steel joist design component
- Component is a Tekla Structures add-on providing seamless integration
- Simplifies and accelerates steel joist design

Dynamic manufacturing and delivery

- We adjust to YOUR timeline or changing erection schedule
- Staged and just-in-time deliveries available
- Just tell us what you need and when you need it

Total-project cost savings

- We can engineer a wide range of costs out of most any project
- Reduce steel tonnage for immediate cost savings
- Avoid a chain-reaction of costs for handling, lifting, erection
- Prevent delayed building occupancy and lost retail revenues
